Education

B.Tech (CSE), Graphic Era Deemed To Be University (2023-2027)

- CGPA: 9.08 / 10

High School (Class 12th)

- Percentage: 97.6%

Secondary School (Class 10th)

- Percentage: 96.2%

Skills

- C, C++, Java, HTML
- Concepts of OOPS, Data Structures
- GDB, GCC, Codeblocks, Visual Studio Code, Eclipse
- Microsoft Word, Microsoft Excel, Powerpoint
- Windows, Linux
- Github

Projects

Medical Image Fusion

- Implemented a Wavelet Transform-based medical image fusion technique to combine CT and MRI scans for enhanced brain tumor detection. Optimized preprocessing (image normalization, alignment) and fusion rules (maximum and average) to retain critical diagnostic information, achieving high PSNR and SSIM scores.

Inventory Management System

- Currently working on enhancing the Inventory Management System using the Knapsack Algorithm, focusing on improving real-time inventory optimization, refining stock allocation strategies, and enhancing system performance with better data integration and decision-making capabilities.

Cybersecurity Enhancement for Inventory Management System

- Currently working on strengthening the Inventory Management System by implementing advanced cybersecurity measures to protect against cyber threats. Focus areas include secure data handling, access control, threat detection, and system resilience to ensure robust protection against potential attacks.

SCHOLASTIC ACHIEVEMENTS

- Secured 13th position in state-level ranking for 12th-grade board exams.
- Solved 150+ LeetCode problems with a strong focus on efficiency and optimization, improving coding speed and accuracy in competitive programming environments
